

MATERIAL HANDLING

- Coal yard applications
- Amazing versatility and wear life
- Fully fabricated systems to retrofit wear liners

Thermo Vac utilizes a variety of wear materials to customize your systems and get the most life possible for each application

1/4" Alumina Ceramic on 1/4" Plate

- 1"X1" cross sections of ceramic combat heavy sliding wear and low to medium impact.
- Outlasts AR plate 4-5 times in these applications
- Can easily be cut or formed in custom shapes

1/4" Chome Carbide Overlay on 1/4" Plate

Offers good wear resistance and can withstand heavy impact.

- Thermo Vac also offers XAR plate and UHMW for areas that do not see a lot of wear.
- Various attachment methods to suit your needs
