

## Thermo-Vac Turning and Milling Capabilities

At Thermo-Vac, we pride ourselves on delivering precision machining solutions tailored to meet the unique needs of our clients. Our advanced turning and milling capabilities ensure exceptional quality and efficiency, making us your trusted partner for manufacturing excellence.

### Turning Capabilities

- Precision Turning: Our advanced turning equipment allows us to handle both rough and finish machining processes for various ferrous and non-ferrous materials.
- GD&T: We achieve tight tolerances and exceptional surface finishes, ensuring that every component meets the highest standards of quality and precision.
- Versatility: Capable of producing complex geometries and intricate details, our turning services are ideal for a wide range of applications.

### Milling Capabilities

- Advanced Milling: Equipped with vertical and horizontal milling machines, we can produce complex parts with high precision and accuracy.
- Custom Solutions: From prototypes to large production runs, our milling services are tailored to meet the specific requirements of each project.
- Large Work Envelope: Accommodating parts of various sizes and shapes with our state-of-the-art equipment.
- Design Flexibility: Seamlessly integrates with CAD/CAM software for precise execution of your designs.

**Why Choose Thermo-Vac? Expertise, Quality Assurance, Customer Focus**
